## Home Care Physicians...

Do you find it difficult to secure, or have you been overcharged for your professional liability coverage just because you provide home-care services?

Other homecare practitioners have experienced being dropped by their insurers because those companies lack the understanding of the nature of the in-home professional practice and those who are dedicated to providing services to homebound patients.

Voluntarily giving up medical staff privileges and/or an office practice is taken by many companies as a sign that you may not be able to compete in that environment, or may not possess the skills to deliver office based care and have retreated to providing homecare.

*“Whatever the makeup of your practice, we have a solution that will lower your premium.”*

### Here is the *Right* Solution

If you find yourself in this predicament we have a solution that may be right for you. Started by homecare professionals, Advanced Physicians Insurance Risk Retention Group, Inc. was formed to insure physicians providing services in the home, or with a small percentage of their patients in a nursing home, assisted living facilities, or with a small percentage of their patients in a nursing home.

We believe that your decision to be mobile and reach out to a non-ambulatory patient population is a noble one. Whatever the makeup of your practice, we have a solution that will lower your premium.

### Act Today!

Take the first step and complete the FAX-BACK form on our website with your contact information. Even if you just renewed your coverage, you may find we will save you so much that it would make sense to switch now.

If you have any questions feel free to call our office toll-free at (800) 419-5999 — There is no obligation, and everything will be held in the strictest of confidence.
